

Virtual Healthcare Education Keeping your members connected

EBS are delighted to announce that we are delivering virtual conferences, using our tried and tested platform, with successful results! The platform provides an opportunity for all attendees to not only attend educational sessions, but be involved in those sessions with Q&A and interactive polling.

With poster viewing facilities (with scoring), and an exhibition hall, the platform delivers everything needed during this pandemic period and more. Positive feedback has been received regarding the connectivity of the platform, which allows for delegates to meet on a face-to-face basis linking to Zoom, with speakers and experts, and the industry.

Its simplistic, user-friendly layout boasts all the features that an onsite event would have. The platform is competitively priced and is vital for maintaining communication with your members, delivering your educational objectives, networking and so much more. Don't just take our word for it, here's what people have been saying...

"An excellent event and easy to use. Well done to all involved."

"It was the best virtual meeting I've attended, so well organised and ran to time like clockwork."

"Thank you for making this online conference presenter's experience such a positive one. You had clearly done a huge amount of work to make the conference as slick as it could be on-line – it was a great platform and well executed."

"Spent the day experiencing the conference platform OnAir. It's been really great, easy to use, loved the poster gallery and exhibition - was great talking online."

Main features

- Live presentations
